

# RTC Real Time Clock

**Produktkode:** 206aa

**Tilgjengelighet:** Opp til 1 mnd leveringstid

**Custom Field 5 (Location):** T15

**Pris: kr. 60,00**

## Short Description

For Arduino AVR ARM PIC 51 New RTC I2C DS1307 AT24C32 Real Time Clock Module

## Beskrivelse

Two wire I2C interface.

Hour : Minutes : Seconds AM/PM.

Day Month, Date - Year.

DS1307 based RTC (Battery not included).

1Hz output pin.

56 Bytes of Non-volatile memory available to user.

The DS1307 is accessed via the I2C protocol.

The module comes fully assembled and pre-programmed with the current time.

Size: Approx. 27mm X 28mm X 8.4mm

Color: As the picture shown

**Packing content:** 1 piece DS1307 Time Clock Module
