- F550 is a series of "Flycatcher" Multirotor Frame. It is very suitable for RC beginner although F550 have simple design, with built-in circuit board for ESC power distribution, carbon joint for strong structure to let your more easier for maintenance. The mounting holes design can fit for different controller board e.g. KK, FC, BLH, MPYC in the RC market, it can make different kind of your need e.g. FPV.
- Please note that the thickness of the 4 motor arms are 2mm, pls use M3x8 screw for motor fixing.
- Note: Due to the difference between different monitors, the pictures may not reflect the actual color of the item. Thank you!
